

The Federal Communications Commission

Dear The Federal Communications Commission,

TO: Federal Communications Commission,

I do not want to pay more for my telephone service! I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund. I am concerned that this proposal could make my current service unaffordable.

Under the flat fee proposal being considered, people who make few long distance calls would pay the same as people or businesses that make many calls. In other words, low-volume and primarily residential customers would bear the same universal service fund burden as a high-volume residential or business customers. This is unfair!

I am on Disability Insurance and have a limited income. I use my wireless phone for safety, security and convenience. I don't want to lose these benefits. I urge you to reject the proposal to move the USF collection system to a flat-fee.

Keep the USF Fair!

Thank you, Ronald Post

Sincerely,

Ronald Post
